

Majd Alfhaily

Profile

A highly motivated and enthusiastic Software Engineering student with a great passion for technology and the evolving industry. Self-taught Software Development since the age of 15 & started officially doing freelance work at the age of 18. Recently worked with N26, the hottest Fintech startup in Europe. Keen to secure a position as an iOS Engineer/Developer as an Intern while pursuing my Bachelor degree.

Experience

UnternehmerTUM
Digital Product School
January – March (2019)

Product Manager Participant

A 3 months scholarship from Facebook to work in a community of digital product makers and gain professional experience through working in a cross-functional product team.

N26 Mobile Bank
June – September (2018)

iOS Engineer

N26 is Europe's first Mobile Bank and one of the hottest Fintech startup with a full European banking license. During my Internship at N26, I was involved in:

- Migrating existing code from Objective C to Swift.
- Building prototypes using new Apple technologies. (e.g. ARKit).
- Building newly released iOS App Extensions. (e.g. Apple Watch app).
- Building new features for the iOS App.
